

## Digital Therapeutics Across Communities – Rotary for Digital Health Aggregated Data Collection Form

### Instructions for Rotary Clubs

This form enables each Rotary Club to submit, in aggregated and anonymous form, the results of the activities carried out within the framework of the project.

The form provides a concise collection of:

- quantitative data derived from the adult stakeholder questionnaire;
- qualitative evidence emerging from interviews or focus groups;
- evidence collected within the educational sector;
- a brief territorial summary prepared by the Club.

Data must be reported exclusively in numerical or synthetic form, without indicating names or identifying information.

The information collected will be used exclusively to:

- build the project's national database;
- develop territorial reports;
- contribute to the drafting of the Rotary White Paper on Digital Therapeutics.

### 1. General Information About the Club

Rotary Club:

Territory/City:

Rotary District:

Project Contact Person within the Club:

Contact Email:

Date of Completion:

### 2. Stakeholders Involved

Category	Number
Primary care physician (doctor)/pediatricians	
Specialist care physician (doctor)	
Pharmacists	
Public administration/institutions	
Teachers/school principals	
Educators/trainers	
Patient associations	
Third sector/volunteering organizations	
Citizens	

Total adult stakeholders involved:

### 3. School Participation

Category	Number
Primary school students	
Secondary school students	

Total school participants:

Total overall project participants:

### 4. Adult Stakeholder Questionnaires – Aggregated Summary

Total number of completed questionnaires:

#### 4.1 Reach

##### 4.1.1 Is the territory adequately reached by information regarding Digital Therapeutics?

Response	Number
Always	
Often	
Rarely	
Never	

#### 4.2 Effectiveness

##### 4.2.1 Level of knowledge regarding Digital Therapeutics

Response	Number
Very high	
Adequate	
Limited	
None	

##### 4.2.2 Perceived usefulness of Digital Therapeutics

Response	Number
Very much	
Fairly	
Slightly	

Not at all	
------------	--

### 4.3 Adoption

#### 4.3.1 Support for the introduction of Digital Therapeutics within the territory

Response	Number
Very high (Favorable)	
Adequate (Fairly favorable)	
Limited (Slightly favorable)	
None (Not favorable at all)	

#### 4.3.2 Main barriers identified

1	
2	
3	

### 4.4 Implementation

#### 4.4.1 Availability of digital infrastructure

Response	Number
Always	
Often	
Rarely	
Never	

#### 4.4.2 Availability of professional competencies

Response	Number
High	
Adequate	
Limited	
Absent	

#### 4.4.3 Interoperability of information systems

Response	Number
Complete	
Partial	
Absent	
I don't know	

#### 4.5 Maintenance

##### 4.5.1 Territory's capacity to sustain the adoption of Digital Therapeutics

Response	Number
Very much	
Fairly	
Slightly	
Not at all	

##### 4.5.2 Conditions required for sustainable adoption

1	
2	
3	

#### 5. Recommendations for Public Decision-Makers

##### 5.1 Summary of recommendations emerging from the questionnaires

1	
2	

3	
---	--

## 6. Qualitative Data Collection

### 6.1 Interviews or Focus Groups

Method used:

☐ Semi-structured interviews

☐ Territorial focus group

Number of participants:

#### 6.1.1 Main themes that emerged

1	
2	
3	

#### 6.1.2 Most frequently mentioned barriers

1	
2	

#### 6.1.3 Enabling conditions identified

1	
---	--

## 7. Evidence from the Educational Sector

### 7.1 Primary School

*(teacher's narrative summary)*

#### 7.1.1 Main themes that emerged

- 
- 

#### 7.1.2 Signs of curiosity or interest

- 

#### 7.1.3 Possible comprehension difficulties

- 

### 7.2 Secondary School

Number of students involved:

#### 7.2.1 Knowledge of the topic before the session

#### 7.2.2 Usefulness of digital technologies in healthcare

Response	Number
Very useful	
Fairly useful	
Slightly useful	
Not useful at all	

#### 7.2.3 Perceived benefits

- 
- 

#### 7.2.4 Perceived risks or concerns

- 
-

**8. Public Activity Conducted**

Type of event:

- ☐ Public meeting
- ☐ Seminar
- ☐ School event
- ☐ Other

Estimated number of participants:

Brief description of the initiative:

**9. Territorial Summary of the Club**

**9.1 Main opportunities**

1	
2	
3	

**9.2 Main critical issues**

1	
2	
3	

**10. Key Message from the Territory**

(maximum 5 lines)

**11. Final Note from the Club**

Any additional observations considered useful for the national synthesis.
